

David Ramírez García

Associate Professor (Universidad Carlos III de Madrid, Spain)
Signal Processing Group. Department of Signal Theory and Communications

Phone: +34 91 624 8796
E-mail: david.ramirez@uc3m.es
Web page: <https://ramirezgd.github.io/>

Born in Santander, Spain, 28 May 1983

Education

Ph.D. in Telecommunication Engineering. Dissertation title: “Detection and Estimation of Time Series using a Multi-sensor Array”. *Summa cum laude* (with honors). Univ. de Cantabria. July 2011
B.Sc. & M.Sc. in Telecommunication Engineering. Univ. de Cantabria. July 2006

Academic employment

- Associate Professor (“Profesor Titular”). Univ. Carlos III de Madrid. Feb. 2019 – Present
- Assistant Professor (“Profesor Visitante”). Univ. Carlos III de Madrid. Sept. 2015 – Feb. 2019
- Tenured Assistant Professor (“Akademischer Rat”). Univ. Paderborn. Nov. 2013 – Aug. 2015
- Research Associate (“Wissenschaftlicher Mitarbeiter”). Univ. Paderborn. Sept. 2011 – Oct. 2013
- Research Assistant (FPU grant). Univ. de Cantabria. May 2007 – April 2011
- Contract Researcher. Univ. de Cantabria. Feb. 2007 – Mar. 2007
- Contract Researcher. Univ. de Cantabria. Nov. 2006 – Dec. 2006

Research interests

- Statistical signal processing: Detection and estimation
- Change-point management: Detection, classification, . . .
- Signal processing on graphs
- Signal processing for wireless communications

Prizes and awards

- 2012 Young Author Best Paper Award by the IEEE Signal Processing Society for the paper “Detection of Spatially Correlated Gaussian Time Series”, co-authored by D. Ramírez, J. Vía, I. Santamaría and L. L. Scharf and published by the IEEE Transactions on Signal Processing, vol. 59, issue 8, pp. 3764–3774, August 2010

- Certificate of Merit awarded by the IEEE Signal Processing Society “for outstanding editorial board service for the IEEE Transactions on Signal Processing”, 2020
- 2013 Extraordinary Ph.D. Award by the University of Cantabria for the Thesis “Detection and Estimation of Time Series using a Multi-sensor Array”

Teaching experience

Universidad Carlos III de Madrid

- Lectures and Tutorials for Digital Communications. 2015–2025
- Lectures and Tutorials for Statistical Signal Processing (Master). 2023–2025
- Lectures and Tutorials for Introduction to Statistical Signal Processing. 2023–2025
- Lectures and Tutorials for Statistical Signal Processing. 2019–2023
- Lectures and Tutorials for Signal Processing in Communications. 2015–2019
- Tutorials for Applications of Digital Signal Processing to Transmission. 2016–2019
- Tutorials for Advanced Techniques in Signal Processing and Communications. 2015–2016
- Supervision/Co-Supervision for four Bachelor’s Theses and seven Master’s Theses

Universität Paderborn

- Tutorials for Statistical Signal Processing. 2011–2015
- Tutorials for Probability for Engineers. 2011–2015
- Students supervision in Topics in Signal Processing. 2011–2012 & 2013–2014
- Projects supervision. 2012–2015
- Supervision/Co-Supervision for one Bachelor’s Thesis and three Master’s Theses

Universidad de Cantabria

- Lectures (substituting I. Santamaría) for Digital Signal Processing. 2009–2011
- Digital Signal Processing Laboratory. 2009–2010
- Signals and Systems (laboratory). 2010–2011
- Co-supervision for two Master’s Theses

Current PhD students

- Leire Paz. Univ. Carlos III de Madrid. Since 2023
Advisor: Pablo M. Olmos. Co-Advisor: David Ramírez.
- Miguel Ángel Villalba. Univ. Carlos III de Madrid. Since 2023
Advisor: David Ramírez. Co-Advisor: Antonio Artés.

Past PhD students

- Pablo Bonilla. Univ. Carlos III de Madrid. 2018–2022
Advisor: Antonio Artés. Co-Advisor: David Ramírez.
- Stefanie Horstmann. Univ. of Paderborn. 2016–2024
Advisor: Peter J. Schreier. Co-Advisor: David Ramírez.
- Óscar Jiménez. Univ. Carlos III de Madrid. 2020–2025
Advisor: Pablo M. Olmos. Co-Advisor: David Ramírez.

Visiting researcher

- Department of Mathematics of the Colorado State University, USA.
Dates: 7 – 13 November 2014. Topic: Detection of cyclostationary time series in multi-sensor arrays
- Department of Statistical Science of the University College London, United Kingdom.
Dates: 29 September – 3 October 2014. Topic: The localized monogenic signal
- Department of Statistical Science of the University College London, United Kingdom.
Dates: 8 – 12 April 2013. Topic: A localized measure of unidirectionality
- Department of Statistical Science of the University College London, United Kingdom.
Dates: 13 – 17 February 2012. Topic: A measure of unidirectionality
- Signal and System Theory group of the University of Paderborn, Germany.
Dates: 14 – 25 March 2011. Topic: The random monogenic signal
- Electronic Technology and Communications group of the University of Coruña, Spain.
Dates: 25 – 29 October 2010. Topic: Experimental evaluation of interference alignment under imperfect channel state information
- Electronic Technology and Communications group of the University of Coruña, Spain.
Dates: 30 June – 08 July 2010. Topic: Building a multiterminal MIMO platform and initial experiments on interference alignment
- Signal Processing in Communications group of the University of Vigo, Spain.
Dates: 31 May – 4 June 2010. Topic: Detection of multiple primary users in cognitive radio networks
- Signal Processing Microelectronics group of the University of Newcastle, Australia.
Dates: 13 October – 14 December 2009. Topic: New measures of linear correlation and mutual information in the frequency domain

Selected research projects

Public funding

- David Ramírez, Pablo Martínez-Olmos, Calibrated discrete representations and time-series modeling with robust self-supervised networks (CARTESIAN). Spanish Research Agency. Sep. 2025 – Aug. 2028

- David Ramírez, IRIS: Towards a personal assistant for improving the emotional well-being. Comunidad de Madrid. Jan. 2024 – Sep. 2025
- David Ramírez, Advanced detection algorithms for passive radar. Office of Naval Research Global. Jan. 2023 – Dec. 2025
- David Ramírez, Pablo Martínez-Olmos, Explainable deep latent representations for patient-centered mental health (EPiCENTER). Spanish Research Agency. Sep. 2022 – Aug. 2026
- David Ramírez, Detection of behavioral changes and its application in psychiatry. Comunidad de Madrid. Feb. 2019 – Jan. 2022
- David Ramírez, Change-point management: Statistical approaches and manifold learning (CAIMAN). Ministry of Economy, Industry and Competitiveness of Spain. Jan. 2018 – Dec. 2020
- David Ramírez, Peter J. Schreier, A Unifying Framework for Detecting Cyclostationarity with Applications to Cognitive Radio. German Research Foundation. Nov. 2015 – Nov. 2017

Industry funding

- David Ramírez, Joaquín Míguez, Solución de atención médica automática y personalizada para enfermedades mentales. Evidence based behavior, S. L. Jan. 2019 – Oct. 2020
- David Ramírez, Joaquín Míguez, Servicios de asesoramiento en el área de soluciones de tratamiento de señal y aprendizaje automático en el ámbito de la salud. Evidence based behavior, S. L. Jan. 2018 – Dec. 2021

Collaboration in funded research projects

Public funding

- Clinical AI for risk evaluation in suicide prevention through foundational models, digital phenotype, and exposome (CARE). Comunidad de Madrid. Jan. 2026 – Dec. 2028
- Inteligencia artificial para la industria 4.0: Generación de datos, modelado avanzado, optimización e interpretabilidad (IDEA). Comunidad de Madrid. Jan. 2025 – Dec. 2028
- Una solución integral de medicina personalizada para el cuidado de pacientes de cáncer basada en el control dietético, de hábitos de vida y de bienestar emocional (LUMICARE). Spanish Research Agency. Dec. 2024 – Nov. 2027
- Prevención de recaídas en trastornos de conducta (PreCARE). Spanish Research Agency. Nov. 2023 – Nov. 2026
- Sistema de atención domiciliaria inteligente e interactivo para la mitigación de la pandemia del COVID-19. Comunidad de Madrid. Feb. 2020 – Dec. 2022
- Computational psychiatry and comprehensive models of behavior (PRACTICO). Comunidad de Madrid. Jan. 2019 – Dec. 2021

- Microfoundations of behavior: An ICT-based approach to understanding human behavior and interaction (aMBITION). Ministry of Economy (Spain) and ERDF (European Commission). Jan. 2019 – Dec. 2020
- Advanced Bayesian computation methods for estimation, prediction and control in multi-sensor complex systems (ADVENTURE). Ministry of Economy (Spain) and ERDF (European Commission). Jan. 2016 – Dec. 2018
- Intelligent Systems: Concepts and Applications (CASI-CAM). Comunidad de Madrid. Oct. 2014 – Sep. 2018
- Overhead-Throughput-Optimal Signaling Schemes for Next-Generation Wireless Networks (OTO-SiS). Ministry of Economy (Spain). Jan. 2014 – Dec. 2016
- Radio Access Techniques for Heterogeneous Wireless Networks (RACHEL). Ministry of Economy (Spain). Jan. 2014 – Dec. 2016
- Signal Processing for Identifying Coupled Effects in High-Dimensional Data. German Research Foundation. Aug. 2014 – Aug. 2017
- Nonparametric Techniques for Analyzing Directional Structure in Space-Time Random Fields. German Research Foundation. Aug. 2013 – Aug. 2015
- Computational Inference in High Dimensional Random Complex Systems (COMPREHENSION). Ministry of Economy (Spain). Jan. 2013 – Dec. 2015
- Cooperative and cognitive strategies for interference management in wireless communication networks (COSIMA). Ministry of Science and Innovation (Spain). Jan. 2011 – Dec. 2013
- Foundations and Methodologies for Future Communication and Sensor Networks (COMONSENS). Ministry of Science and Innovation (Spain). Dec. 2008 – Dec. 2013
- Advanced MIMO systems for maximum reliability and performance (MIMAX). European Commission. Seventh Research Framework Program. Jan. 2008 – Dec. 2010
- MIMO technologies for multiterminal wireless networks (MultiMIMO). Ministry of Education and Science (Spain). Oct. 2007 – Sept. 2010
- Development and hardware demonstration of new transmission techniques for MIMO systems (MIMESIS). Ministry of Education and Science (Spain). Dec. 2004 – Dec. 2007

Industry funding

- Research and implementation of a digital model for radar warning receiver (RIDWARE). IN-DRA. Apr. 2025 – Mar. 2026
- Proyecto de desarrollo de las capacidades de medición de competencias de candidatos a través de la Gamificación y la Inteligencia Artificial. Jan. 2020 – Dec. 2020
- Desarrollo de la algorítmica de una unidad IMU de bajo coste. TTI Norte, S.L. Feb. 2010 – Apr. 2011
- Asesoramiento y Gestión para la industrialización del sistema de control y medida Sayme. Consultora y Software Innova S.L. Sept. 2007 – Dec. 2007

- Integration of Radio-Transceivers Multistandard in an SDR Platform. Advanced Communication Research and Development (ACORDE). Jul. 2007 – Sept. 2007

Membership or activities in professional associations

- IEEE Senior Member
- Signal Processing Society Member

Invited talks

- Power-CCA: Maximizing the correlation coefficient between the power of projections, Department of Statistical Science of the University College London, United Kingdom. 12 April 2013
- Detection of Cyclostationary Time Series in Multi-Sensor Arrays, Department of Mathematics of the Colorado State University. 12 November 2014
- Detection of Cyclostationary Time Series in Multi-Sensor Arrays, Department Signal Theory and Communications of the University Carlos III of Madrid. 1 June 2015
- Detection of Cyclostationary Time Series in Multi-Sensor Arrays, Forty-Six Years (and counting) of Statistical Signal Processing: A workshop in recognition of the career contributions of Louis Scharf. 10 November 2015
- One-bit Target Detection in Collocated MIMO Radar, Department of Mathematics of the Colorado State University. 16 July 2024

Professional service

- Senior Area Editor, IEEE Transactions on Signal Processing (2024–2026)
- Associate Editor, IEEE Transactions on Signal Processing (2018–2022)
- Publications Chair, IEEE Workshop on Statistical Signal Processing (SSP 2018)
- Member, IEEE Technical Committee on Sensor Array and Multichannel (SAM-TC) (2025–2027)
- Member, IEEE Technical Committee on Signal Processing Theory and Methods (SPTM-TC) (2017–2022)
- Member, EURASIP Technical Area Committee on Theoretical and Methodological Trends in Signal Processing (TMTSP-TAC) (2022–2027)
- General Co-Chair, 9th Graph Signal Processing Workshop (GSP 2026)
- Co-Organizer, 4th EURASIP-IEEE Spanish Workshop on Signal Processing, Information Theory and Communications
- Special Session Co-Chair (with J. Vía and L. Scharf), ICASSP 2015: “Theory and Application of Coherence in Signal Processing”

- Technical Program Committee (TPC) Member for major international venues: 2012 Workshop on Cognitive Information Processing, 2012 IEEE International Workshop on Machine Learning for Signal Processing, 2014 IEEE Symposium on Wireless Technology and Applications, 2016 IEEE GlobalSIP Symposium on Signal and Information Processing Over Networks, 2016 IEEE Global Conference on Signal and Information Processing, 2017 IEEE Annual International Symposium on Personal, Indoor, and Mobile Radio Communications (MAC and Cross-Layer Design), 2017 IEEE GlobalSIP Symposium on Graph Signal Processing, 2018 IEEE Workshop on Statistical Signal Processing (SSP 2018), 26th European Signal Processing Conference (EUSIPCO 2018), 2020 IEEE Statistical Signal Processing Workshop (SSP 2020), 2023 IEEE Statistical Signal Processing Workshop (SSP 2023), Nineteenth International Symposium on Wireless Communication Systems (ISWCS 2024)
- Track Chair, 33rd European Signal Processing Conference (EUSIPCO 2025)
- Session Chair or Co-Chair for 13 sessions at flagship conferences (ICASSP, Asilomar, SSP)
- External Reviewer for tenure and promotion evaluations

I usually review/reviewed for:

- Reviewer for the following journals: IEEE Transactions on Signal Processing; IEEE Transactions on Information Theory; IEEE Transactions on Audio, Speech and Language Processing; IEEE Transactions on Wireless Communications; IEEE Transactions on Communications; IEEE Transactions on Vehicular Technology; IEEE Transactions on Intelligent Transportation Systems; IEEE Transactions on Aerospace and Electronic Systems; IEEE Transactions on Green Communications and Networking; IEEE Journal of Selected Topics in Signal Processing; IEEE Signal Processing Letters; IEEE Communications Letters; IEEE Open Journal of Signal Processing; IEEE Transactions on Biomedical Engineering; Applied and Computational Harmonic Analysis; The Annals of Statistics; Journal of Applied and Computational Topology; Signal Processing (Elsevier); Digital Signal Processing; Journal of Visual Communication and Image Representation; IET Signal Processing; IET Communications; IET Electronics Letters; EURASIP Journal on Wireless Communications and Networking; Wireless Networks; and Mobile Networks and Applications.
- Reviewer for the following international conferences: IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP 2015, 2017–2026); European Signal Processing Conference (EUSIPCO 2014, 2019, 2020, 2023–2026); IEEE Workshop on Statistical Signal Processing (SSP 2016, 2018, 2025); Asilomar Conference on Signals, Systems, and Computers (2021, 2023–2025); IEEE Global Conference on Signal and Information Processing (GLOBALSIP 2017–2019); International Symposium on Wireless Communication Systems (ISWCS 2014, 2015, 2024); IEEE Sensor Array and Multichannel Signal Processing Workshop (SAM 2014, 2016); IEEE International Workshop on Machine Learning for Signal Processing (MLSP 2012, 2023); IEEE Symposium on Personal, Indoor and Mobile Radio Communications (PIMRC 2009, 2010); IEEE International Conference on Communications (ICC 2011); IEEE Symposium on Computers and Communications (ISCC 2011); International Symposium on Information Theory (ISIT 2020); IEEE International Workshop on Computational Advances in Multi-Sensor Adaptive Processing (CAMSAP 2017, 2025); International Symposium on Mathematical Theory of Networks and Systems (MTNS 2014); International Conference on Systems, Signals and Image Processing (IWSSIP 2012); International Workshop on Cognitive Information Processing (CIP 2012); International Conference on Independent

Component Analysis and Signal Separation (ICA 2009); IEEE Vehicular Technology Conference (VTC 2008 Spring); Mosharaka Multi-Conference on Communications, Networking and Information Technology (MM-CNIT 2007); First Wireless Euro-Mediterranean International Conference (WEMIC 2006); IEEE Data Science Workshop (DSW 2019); and IEEE Symposium on Wireless Technology and Applications (ISWTA 2014).

University service

- Director of Graduate Studies, Department of Signal Theory and Communications, Universidad Carlos III de Madrid (2025–Present)
- Deputy Chair, Department of Signal Theory and Communications, Universidad Carlos III de Madrid (2023–Present)
- Chair, Department of Signal Theory and Communications, Universidad Carlos III de Madrid (2021–2023)
- Academic Secretary, Department of Signal Theory and Communications, Universidad Carlos III de Madrid (2019–2021)
- Member of the Appointments Committee (Non-Tenured Positions), Department of Signal Theory and Communications, Universidad Carlos III de Madrid (2020–2023)
- I served on the following Ph.D. Committees:
 - Sadiq Ali, “Multi-sensor detection schemes using spatio-temporal models”, Ph.D. Dissertation, Department of Telecommunications and Systems Engineering, Universitat Autònoma de Barcelona.
 - Julio César Manco Vásquez, “Experimental evaluation of new detection techniques for cognitive radio”, Ph.D. Dissertation, Department of Communications Engineering, Universidad de Cantabria.
 - Javier Zazo Ruiz, “Nonconvex quadratic problems and games with separable constraints”, Ph.D. Dissertation, Department of Signals, Systems, and Radiocommunications, Universidad Politécnica de Madrid.
 - Grace Silvana Villacrés Estrada, “Capacity limits of bursty interference channels”, Ph.D. Dissertation, Department of Signal Theory and Communications, Universidad Carlos III de Madrid.
 - Jacobo Fanjul Fernández, “Analysis and experimental evaluation of flexible duplexing for multi-tier MIMO networks”, Ph.D. Dissertation, Department of Communications Engineering, Universidad de Cantabria.
 - Vaibhav Garg, “Subspace-based order estimation techniques in massive MIMO”, Ph.D. Dissertation, Department of Communications Engineering, Universidad de Cantabria.
 - Emese Sükei, “A step towards advancing digital phenotyping in mental healthcare”, Ph.D. Dissertation, Department of Signal Theory and Communications, Universidad Carlos III de Madrid.
